Grand Slam - nice to know

A **Grand Slam** is a term used to describe major, historic successes, particularly in sport. In golf, the Grand Slam traditionally consists of winning the four most important tournaments (majors) of a calendar year.

These are the Masters Tournament in the USA (Augusta, Georgia), the Open Championship (Great Britain), the US Open (USA) and finally the PGA Championship (USA).

In 1930, Bobby Jones won all four major titles and went down in the sport's history books with this "Grand Slam".

If you have any allergies, please inform our service staff or ask for our menu with allergen labeling.
